

# South Lake Recreational Water and Sewer District

## SEPTIC MAINTENANCE REIMBURSEMENT PROGRAM APPLICATION

Maintaining your septic system can be costly! This cost-share program can help while providing big benefits for source water quality. Homeowners in the Lake Cascade watershed that have septic systems near source water may be eligible for cost share reimbursement of 50% of the costs for pumping septic systems (up to \$200 per septic system). The purpose of this reimbursement program is to address source water contamination from septic systems within South Lake Recreational Water and Sewer District by educating and assisting homeowners to properly maintain septic systems and thus, improve source water quality within the watershed.

### Reimbursement program participation criteria:

**Cost-share funding priority for septic systems with drainfields within 100 ft of drinking water wells (priority but not limited to). First come, first serve basis for all other homeowners with septic systems meeting the following criteria:**

- Reside in South Lake Recreational Water and Sewer District area of operation
- Have a septic system in need of pumping (has not been pumped in 5 or more years)
- Have a septic system located 1,000 feet or less from surface water (lake, spring or tributary feeder stream)
- Applications accepted up until October 31, 2023 or until cost-share funds are expended

### Application Instructions:

- Fill out the information on page 2 of the application
- A list of local pump out contractors available on our website
- Submit completed application by email or mail:

**Email to:**

[slrwsd@outlook.com](mailto:slrwsd@outlook.com)

**Mail:**
